

Assembled Student Body Resolution N° 1/2020

A resolution regarding the door between the locker area and the cafeteria hallway
being locked

Whereas, locking the door between the locker area and the cafeteria hallway unnecessarily restricts students from accessing their lockers and attending classes, shall they be late;

Whereas, thereof burdens the front desk employees considerably: Now, therefore, be it

Resolved, That it is the sense of the Assembled Student Body, that –

Repealing the rules requiring that the door between the locker area and the cafeteria hallway be locked shall make lockers more accessible to the students, and therefore might reduce the load students carry, having positive impact on their health; shall remove burden from the front desk employees; shall allow students who come late access to class; the Body is of the opinion that tardy arrivals should be addressed by class advisors and penalized using a system of disciplinary measures, rather than a general denial of access to class.

Considering the arguments above, it is the sense of the Body that the rules requiring that the door be locked should be repealed and the door should remain unlocked at all times.

Passed with 20 Yeas and 0 Nays.
